"I believe that we can create a better world together, a better country, and a better state of Florida. But I know that government only plays one role in this process. The rest is up to each and every one of us. We must each take responsibility for our roles in our communities, being good neighbors, teaching our children the values that we hold dear, and keeping government honest."

"I have devoted my professional career to helping people transform their lives by coaching individuals in how to organize their personal goals into action plans, and assisting with each step of those plans along the way. My coaching has allowed me to work with people from many walks of life including educators, doctors, lawyers, former elected officials, IT professionals, and many others. I want to bring my skills as an organizer, creative thinker, communicator, listener and leader to the State House."

"I've lived in southwest Florida since 2004 with my amazing wife Jennifer and now with our beautiful two-year-old daughter Aurora."
